

AL600 Smart Pet Tracker

Product Overview

◆ Precise Positioning

6-Layer Hybrid Positioning

Integrates GPS/BDS/Wi-Fi/LBS/BT/AGPS for seamless indoor/outdoor coverage.

◆ Rapid Pet Recovery

Visual Find (LED)

High-visibility multi-color LEDs make your pet stand out in dark or complex environments..

Live Finder Mode

One-tap to boost location updates to 5-second intervals for high-precision, real-time searching.

◆ Ultra-Long Battery Life

Power-Saving Design

Low-power Bluetooth + 4G dual-link design with a 530mAh battery and motion-optimized positioning algorithms.

Smart Activity Sensing

Monitors movement to intelligently enable tracking when needed and maximizing battery life during rest.

Audible Find (Buzzer)

One-tap buzzer activation reveals a hiding pet's location through high-frequency sound.

Route Playback

Review historical movement paths to pinpoint search zones and facilitate fast recovery

Extended Standby

Maintain active 4G connectivity for 10+ days and continues to provide location updates for up to 60 days after a low-power shutdown

Product Overview

◆ Ruggedized Protection

IP67-Rated Protection

Built for adventure – fully submersible for swimming and reliable in rainy weather.

◆ Security Fencing

Wi-Fi Safe Zones

Create Wi-Fi safe zones to anchor your pet's location and get instant alerts if they cross these boundaries

Custom Geofencing

Draw virtual perimeters on the map with automatic notifications for any boundary crossing.

◆ Health & Wellness Monitoring

Activity & Calorie Analytics

Precisely tracks exercise levels and calculates calorie burn tailored to your pet's specific profile.

Health Anomaly Alerts

Analyzes activity/rest cycles to provide wellness insights, helping to prevent obesity and sedentary health risks.

Product Overview

◆ Bluetooth Virtual Leash

Establishes a secure Bluetooth tether between the phone and tracker. Receive instant proximity alerts if your pet strays too far. Automatically generates "Walk Report" after each walk, ready for one-click social sharing.

◆ Sleek & Ergonomic Design

Ultra-Compact Form Factor

Measuring just 51 x 32 x 14 mm, the lightweight frame ensures a snug, comfortable fit for both cats and dogs all day long.

Personalized Style

Allows you to easily customize the faceplate to match any style or pet personality.

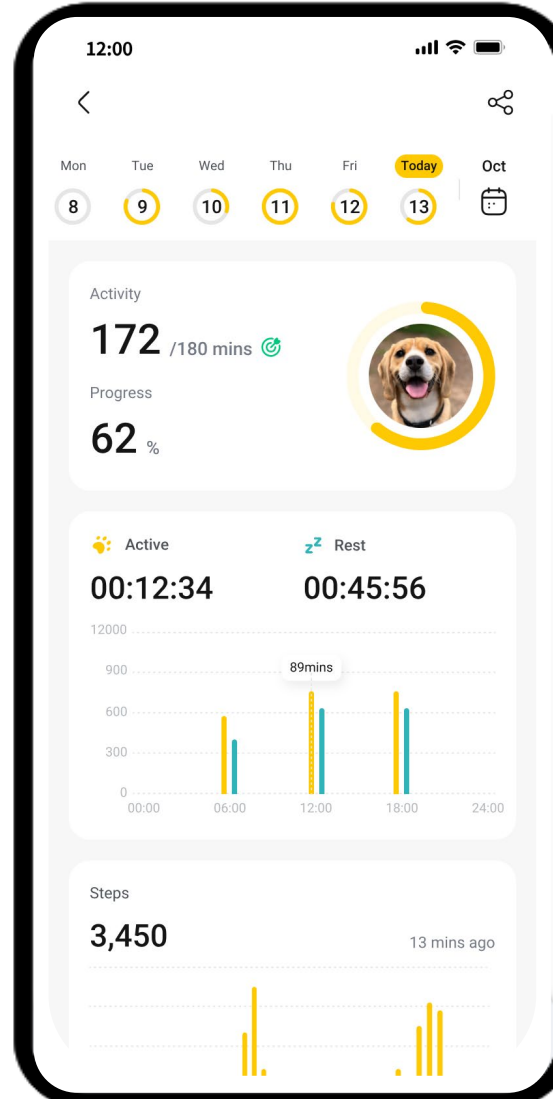

App Features

Smart Activity Reports

Summarize the activity data of your pet and calculates calories burned according to pet profile including height, body length, weight, and breed.

Set up daily exercise targets and monitor active vs. rest time to ensure your pet stays healthy.

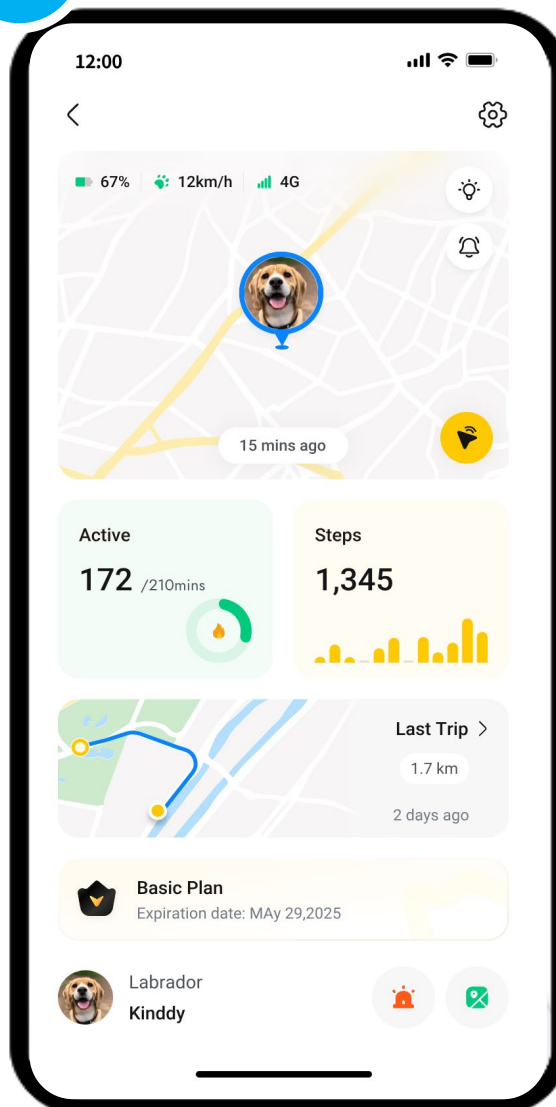

Health Goal Setting

Define daily exercise targets and monitor progress through intuitive charts.

Motion/Stationary Alerts

Monitors pet status (active/rest) and sends instant push notifications if unusual behavior is detected.

App Features

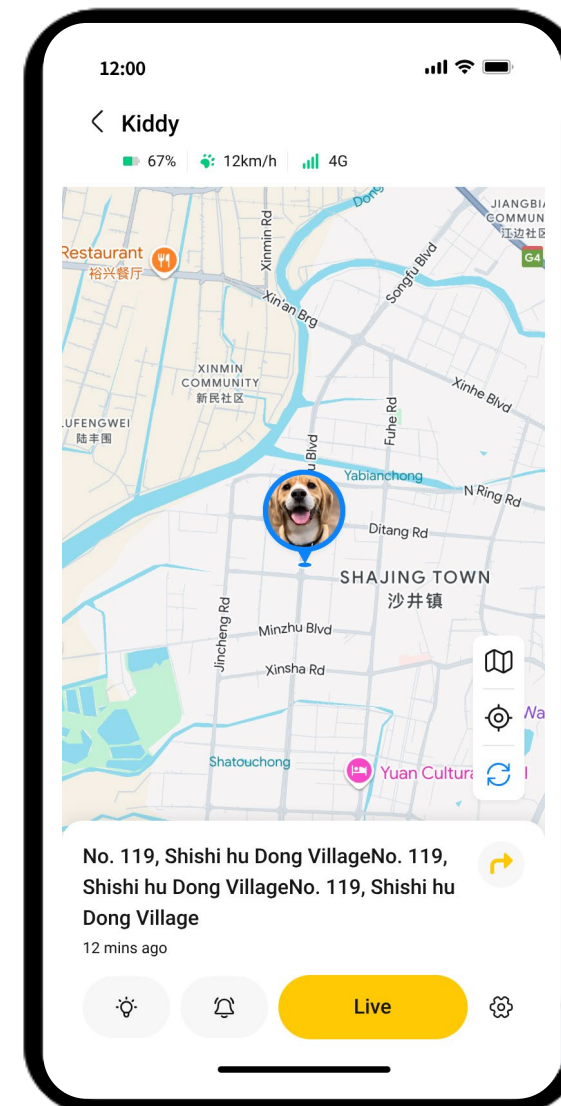

Status Dashboard

Real-time visibility of pet location, battery levels, and activity status at your fingertips

Rapid Pet Recovery

One-tap activation of LED light, buzzer, or high-frequency tracking for quick retrieval in emergencies.

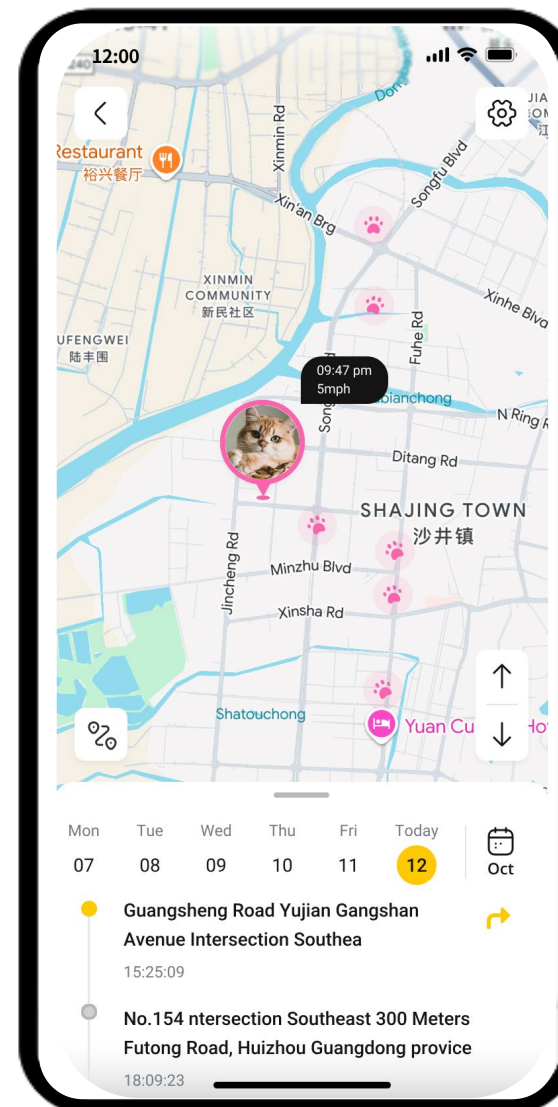

App Features

Bluetooth Virtual Leash

Bluetooth-powered tether that triggers instant phone alerts if your pet wanders beyond a set distance.

Route Playback

Review and replay historical movement paths to track pet activity and facilitate fast recovery if lost.
